Craft Time Pet Cactus Rocks

Material Required

Flat Rocks
Googly Eyes
Outdoor Acrylic Paint
Mini Terra Cotta Pots
Glue

Instructions

Step 1.

First, select your rocks. As mentioned above, you want to look for rocks that are flat on one side so the eyes will go on smoothly. You can even see if you can find some extra details that may give the rock a mouth.

Step 2.

Clean your rocks before painting. Once you have the green painted, use the white to create different cactus designs.

Step 3.

Glue on your googly eyes. Use glue or glue dots.

If you'd like them to stand higher in their pots, use a little bit of paper towel or foam in the bottom of the pots.
