SPRING - 2026

Spring into Savings with LUSO!

We're in the home stretch of our 2025–2026 In-School Banking program, and we couldn't be prouder of our amazing youth savers! Each week, we love visiting our partner schools and watching your savings grow deposit by deposit.

Now is the perfect time to keep the momentum going. Whether you're saving for summer fun or a big goal down the road, every dollar you deposit brings you closer.

Even when the school year ends, you can continue growing your savings by visiting a LUSO branch with your family. Keep saving, keep learning, and keep banking with LUSO—we're cheering you on every step of the way!

Set a Savings Goal

Our Savings Goal Tracker is a fun way to turn your dreams into a plan. Start by writing down something you'd like to save for — maybe a summer toy, a special outing, or something even bigger.

Then fill in how much it costs and how much you already have saved. Seeing your progress on paper makes your goal feel real and exciting!

Next, decide how much you can deposit each week. Even small amounts add up over time. Bring your savings on banking day or visit a LUSO branch with your family to keep growing your account.

Stay focused, keep depositing, and watch yourself reach your goal — one smart step at a time!

Watch Your Savings Bloom!

When you plant a seed, you don't see a flower right away. Saving money works the same way! Your first deposit is like planting your seed in the ground. Every time you make another deposit, it's like watering your savings and helping it grow. And just like plants need sunshine, your savings grow best when you make smart money choices—like saving some of your money instead of spending it all. Keep depositing on your school banking day, and soon your savings will bloom into something awesome!
